

Who better to take up humanity's mantle  
than humanity's best friend?

# WITHOUT MASTERS

*Without Masters* is a post-apocalyptic game about a dog in a world where all humans have mysteriously disappeared. In order to protect the pack of dogs he calls family, he must defeat enemy packs of dogs who threaten their home.

## **Gameplay:**

Invade enemy packs of dogs, fight minions, and defeat the boss, all while encountering many challenges, puzzles, and obstacles. Meet a variety of unique animal characters and explore ruins while unraveling the mystery behind the humans' disappearance.

## **Location:**

The dilapidated ruins of a human city and the harsh badlands that surround it.

## **Features:**

- Throw tennis balls and frisbees to distract enemies (with a small chance of distracting yourself)
- Track scents, dig, and chase squirrels to find items and treasure.
- Collect water and dog food to survive and boost stats. Water gives you more stamina. Food restores your health.
- Use Stamina to run faster and jump greater heights and distances
